BROADCASTING
AUTHORITY
OF IRELAND

An Irish Media Landscape that reflects and shapes who we are

The Broadcasting Authority of Ireland (BAI) is the regulator of independent radio and television in Ireland.

The Authority's key functions are:

- > licensing radio and television services additional to those provided by RTÉ, TG4, the Houses of the Oireachtas Channel and the Irish Film Channel
- > making broadcasting codes and rules
- > the review of the performance of RTÉ and TG4 against their stated annual public objects and on the adequacy or otherwise of the public funding available to PSBs to meet their public services objects
- > to provide, and award, funding for programming and archiving of programme material relating to Irish culture, heritage and experience under the Broadcasting Funding Scheme
- > to monitor and enforce compliance of licensed broadcasters with their respective broadcasting contracts, and relevant broadcasting codes and rules.
- > to provide for, and decide on, complaints from viewers and listeners regarding broadcast content on all Irish broadcasting services
- > supporting the development of the broadcasting sector, including through research, and the provision of funding for sectoral development and sponsorship of media related events.
- > Supporting the understanding of media, including the promotion of media literacy across a range of sectors to empower audiences with the skills and know to understand traditional and new media

The BAI is made up of the Authority, the Contract Awards Committee, the Compliance Committee and the Executive.

You can find out more about the BAI on <http://www.bai.ie>
