GOING CASHLESS

WHAT IS CASHLESS

A new system for school meals and snacks is being provided to ensure students can get a healthy meal everyday.

Rather than giving your child cash each day, you can now load money directly into their school meals account. The money is stored securely and is available to spend in the school canteen.

ITS FAST & EFFICIENT

In the canteen simply use the smart-fob, instead of cash, to purchase school meals with the money stored in your school meals account. The new Point of Sale (POS) Terminals will have a special reader where the smart-fob is used to pay and there's no need to wait for change. Every time the fob is presented at the reader, your balance is displayed. This lets you know how much money is available on your account.
